

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office SEP 12 1974

Returned to applicant for correction

Corrected application filed

Map filed SEP 12 1974 under 28685

The applicant Idaho Mining Corporation

521 Gordon Avenue, of Reno
Street and No. or P.O. Box No. City or Town

Nevada 89502, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.) Applicant is a Nevada
corporation and was incorporated October 11, 1959.

1. The source of the proposed appropriation is Underground, a well to be drilled
approximately 24,311.94 feet S. 2°47'29" Name of stream, lake or other source. W. from
the SW corner of Sec. 36, T.19N., R.53E., MDB&M (within SE¼ SE¼ Sec. 26,
T.18N., R.53E., unsurveyed)

2. The amount of water applied for is one (1) second-foot
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for mining, milling and domestic use
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks") mining & milling, see No. 12

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: SE¼ SE¼, Sec. 26, T.18N.,
R.53E., MDB&M (unsurveyed), 24,311.94' S. 2°47'29" W. from the SW
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
corner of Section 36, T.19N., R.53E., MDB&M
it should be stated.

6. Place of use point of use in NW¼ SW¼ Sec. 14, T.18N., R.53E., MDB&M
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Water will be directed to a storage
tank, from which it will be pumped through a pipeline to the
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
place of use.

9. Estimated cost of works. \$5,500.00
10. Estimated time required to construct works. 1 year
11. Estimated time required to complete the application to beneficial use. 1 year
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Water will be utilized for mining and milling purposes, including leaching, under which water will be used to form a cyanide solution and applied to heaps of ore to leach gold values. Water will also be used for domestic, drilling, dust settling, and other uses incident to the mining and milling operations. Annual consumption is estimated to be 1 second foot or 448 gallons per minute, 24 hours per day, seven days per week, throughout the year.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

The total combined annual duty allowed under this permit and Permits 28685 and 28686 shall not exceed 235.9 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 235.9 million gallons annually.

Actual construction work shall begin on or before July 20, 1975

Proof of commencement of work shall be filed before August 20, 1975

Work must be prosecuted with reasonable diligence and be completed on or before July 20, 1976

Proof of completion of work shall be filed before August 20, 1976

Application of water to beneficial use shall be made on or before July 20, 1979

Proof of the application of water to beneficial use shall be filed on or before August 20, 1979

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed AUG 11 1975

Completion of work filed

Proof of beneficial use filed
